## Virtual Catcher Pitching Analysis for Baseball or Softball

**3-2 Count** offers an innovative training tool for pitchers of all ages and abilities. The virtual reality tool synchronizes with a virtual catcher, accurately measuring and recording the location and velocity of each pitch. It allows coaches and players to set up customized training programs, manage pitch counts and track each player's progress. As a target for the pitcher to consistently focus on, the board is a catcher that only tells the truth and remembers everything you do.

### Target Pitching Analysis

- 15 pitch Session \$ 15
- 15 pitch Session with print out analysis \$ 20
- Program (4 sessions) track progress with print out analysis \$ 70
- (father vs. son, father vs. daughter or teammates vs. teammate)  
3 innings each (15 pitch inning) \$ 40
